Apps
for \$10 or
Less

Technology is everywhere today and our children are naturally drawn to it and great navigators of it! Tablets are a great tool to use to engage with your child and promote their speech and language development while they are having fun! Here is a list of some of our top picks!

Tally Tots, Alpha Tots, & Table Tots

\$2.99 each, available on iTunes/iPad

5 & under

Designed by artists and parents, these “Tots” apps were created for small children to encourage identification, labeling, and understanding of numbers, letters, and early educational concepts.

iSequence

\$3.99 available on iTunes/iPad

Pre-K +

Designed by early intervention specialists, iSequence was created for children on the Autism spectrum but can be used for multiple speech and language disorders. This activity allows for practice of over 100 different sequences about everyday situations. It can be used for sequencing, answering questions, retelling stories, and building vocabulary.

Articulation Station

Free initial download available on iTunes/iPad (\$3.99-\$7.99 individual sound program purchase)

Pre-K+

Designed by a certified speech and language pathologist, Articulation Station was created to help children learn to speak and pronounce their sounds more clearly. This app offers practice at the word, phrase, sentence and

Describe it to Me

\$9.99 available on iTunes/iPad

School age+

Designed by a certified speech-language pathologist, Describe it to me is a multi-level game, created to help improve the receptive and expressive language skills and overall vocabulary. It targets word-finding skills through categorization including: functions, parts, location, etc.

WH Question Island

\$9.99 available on iTunes/iPad

School Age+

Designed by a certified speech and language pathologist, Wh-Questions Island was created to aid children in auditory comprehension tasks and overall verbal expression (sentence formation, grammar, etc) by answering Wh-questions.
